

PROBE IS ORDERED OF RIOTS IN LONDON

American Officers Are on Board to Investigate Part of Americans in English Trouble.

NEW YORK, March 10.—In sympathy with the strike of marine workers, against private boat owners, nearly 20,000 Londoners quit work today, and the city was almost completely paralyzed.

The announcement was made tonight by John F. Riley, chairman of the local council of the International Brotherhood of Marine Workers.

According to Riley, the longshoremen strike is directed principally against the Cunard, Anchor, Feen, and Mallory lines. He declared the strike would succeed to every pier to which freight was brought by strikebreakers.

A threat that marine workers employed by the railroad administration might walk out again was made by William A. Mahon, vice president of the Marine Workers' affiliation. It was said, were the harbor in launches, watching the harbor in launches, watching the harbor in launches, watching the harbor in launches.

At Wewoka. The Producers and Refiners corporation has a derrick up and coring on the ground and will move in about the week for a test well located in the southwest corner of the southeast of the northwest of 21-35-36.

town site and vicinity is now estimated according to some authorities who ought to know, as 25,180 barrels daily.

The Texas company is drilling in a bad hole at 2,750 feet in the No. 21 well in the northwest of 25-21-8.

Markham has a rig up for a No. 2 well on the Thomas farm in the southeast of 24-21-8.

AT YALE—Condens No. 21 in 25-20-8 is a rig. The same company No. 22 in the southeast of 24-21-8.

AT SAPILO. N. V. V. Franchot has a 15-barrel well in No. 24 on the J. D. Kiefer farm in the southwest quarter of 17-17-12. No. 23 on this same farm came in recently and is estimated at 10 barrels.

At Sapulpa. The Producers and Refiners corporation is building a rig and moving in the town on the Joe Johnson farm in the center of the east line of the north half of the northeast quarter of 20-15-12.

CLEVELAND—The Mayfield Oil company No. 2 in the southeast of 11-20-8 has the top of the sand at 2,237 feet. It has not been drilled in yet.

Page, Fowler and others No. 1 Wiggins in the northwest of 25-20-8 is a rig.

The Minnehoma Oil company's No. 2 Skinner in the southeast of 13-21-7 is drilling at 1,800 feet. Duncan, Russell and others are setting the five-inch in the No. 1 De-

MILLIONS HAVE SEEN GREAT PLAY—IN TULSA SOON. It is estimated that more than five million persons have witnessed the stage presentation of the Harvard prize play, "Common Clay," by Cleve Cline and produced by A. H. Woods under whose management it ran for a full year in New York, with Jane Crowl in the stellar role. Six companies played it throughout the United States and Canada and it has the record of having made two trips from New York to the Pacific coast. It has earned a tremendous amount of newspaper discussion and formed the theme of addresses from hundreds of pulpits, because it has to do with one of the most vital of our social problems—the proper rearing and care of the girl, especially in large cities.

Mr. Woods' screen production of this powerful romance, with all of the facilities that the camera offers for broader and more realistic treatment, will, it is said, appeal even more profoundly than the play itself. It will go straight to the heart and conscience of every woman who sees it, not only because of the story itself but also because of the sure artistic interpretation of it by a specially selected cast of players, including such well known names as Mary Alden, W. E. Lawrence, Helen Dunbar, Andrew Arbuckle, John Barrows, John H. Comer, Fred Goodwin and Easter Walters. They give a flawless performance, which will be shown at the Majestic theater on Sunday for four days.

Personals

W. G. Skelly has returned from New York, where he has been for the last 10 days, and is much opposed to any plan for an organized effort to bring the oil business together and under one management.

S. R. Perry has gone back to New York after a sojourn of about a week at home.

E. C. Matthews is at home again after putting in a week looking after his wells now drilling in Texas.

W. G. Selby of the Selby Oil & Gas Co. is here for a short visit from Florida, and reports a flood of travelers in that delightful winter resort.

J. J. Allison, chief engineer of the Empire Gas & Fuel Co., will leave Monday night for New York city for a week's business trip.

Fred Aiken is back from New York and says he is much in favor of the new plan proposed for co-operation in the oil business. He is very strong for the "big boys."

R. W. Hubbard, who is associated with Aiken & Curtis and the Inland Refining company, is in with the Tulsa at the Hotel Tulsa, and is just beginning to feel as though life is worth living.

C. Benton Kennedy, representing

the Brown Instrument company of Philadelphia, is calling on customers in Tulsa.

E. H. Sheets of the firm of Shields Brothers is in the city and is just back from Texas, and says that the well in Erath county known as the Phoenix well is going to make good.

The chances are that Shields Brothers are sitting pretty near said well.

Byron L. Potter, assistant general manager of the Leasener Gas Engine company, left yesterday for Fort Worth on a short business trip.

H. F. Showmaker, vice president of the Continental Refining Co., left for New York last night after a thorough inspection of the Mid-Continent field with reference to

production and expansion and is enthusiastically over the outlook.

Congressman E. B. Howard from the district arrived in Tulsa yesterday from Washington.

V. H. Smith, secretary of the Imperial Refining Co., at Ardmore, was in the city yesterday on his way home from Chicago where he attended the meeting of the Traffic Bureau and discussed the changes in rates pertaining to the southwest field.

A. Gevirman and S. Kanter, president and vice president of the Tulsa Oil & Gas Co., left yesterday for Chicago and are well pleased by the

big showing made by their wells in section 25-15-11, west of Beegs.

Harry D. Frueauff, with Henry L. Doherty & Co's. New York office, is in the city on a tour of inspection and is combining business with pleasure.

TEXAS. We publish survey maps of 30 counties in north central Texas. Tulsa Mapping Co., 402 First National Bldg., Tulsa, Okla.
